

HD-357

DIGITAL WEIGHT SCALE WITH HANDLE

The standard in portability

Only 0.6 inch thick, makes storage easy

Great for travel

Convenient handle, weighs only 3.5 pounds

Instant weight measurements up to 330 pounds

If you're looking for a stylish, portable, low-profile digital weight scale, then look no further. The HD-357 was built for those with small spaces (just over 1/2 inch thick) for easy storage, or when left on the floor it will allow a door to safely pass overhead. The candy-apple color and high gloss finish provide an elegant appearance that stands out from all the others.

The thin design and built-in handle makes it easy to take anywhere (back to school, to the office, the gym, on the road), easily fits into a backpack or suitcase. Ideal for traveling athletes who want to closely monitor their weight. Simple tap-on activation to instantly receive accurate weight measurements. With a 330 pound weight capacity it uses two CR2032 batteries (included).
