MC-780U
New Segmental Multi Frequency Body Composition Analyzer

FDA Cleared Multi-frequency segmental body composition analyzer – providing highly accurate whole body and segmental measurements in under 20 seconds

Easy-to-use - the interactive console guides the user through the personal data input without specialist assistance.

Body composition results are shown on an easy-to-read, extra large LCD dual display.

The full consultation sheet can be directly printed using Pictbridge printer.

EMR ready with high-speed digital outputs

Compatible with Tanita Health Ware® Software allowing database management and progress reports.
**MC-780U**

**SEGMENTAL MULTI FREQUENCY BODY COMPOSITION ANALYZER**

The MC780U Multi Frequency Segmental Body Composition Analyzer is FDA Cleared and perfect for providing an instant analysis of a client’s health and fitness status and monitoring their individual progress over time. The MC780U has been designed to be an interactive, stand-alone unit where clients can step on, input their personal data and take a measurement without specialist assistance. A full body composition analysis is performed in less than 20 seconds. The dual display console clearly shows the body composition measurement results and detailed segmental analysis in an easy-to-read illustrative format.

The measurement results are sent to a PC or transferred directly to a printer so full guidance notes can be printed for further discussion. All user data can be stored and used for detailed trend analysis using Tanita Health Ware® Software or measurements can be stored on an SD card.

**Features:**

**Whole Body Composition Measurements:**
- Weight
- Body fat %
- Fat mass
- Fat free mass
- Muscle mass *
- Total Body Water *
- Extra Cellular Water *
- Intra Cellular Water *
- ECW/TBW ratio *
- Body mass index
- Bone mass *
- Physique rating *
- Visceral fat rating *
- Basal Metabolic Rate *
- Muscle mass balance *
*Available only for Adults 18-99

**Segmental readings for each leg, arm and trunk:**
- Fat %
- Fat mass
- Fat rating *
- Muscle mass *
- Muscle mass rating *
- Reactance/resistance and phase angle
*Available only for Adults 18-99

**Specifications:**
- Uses non-invasive 8 electrode multi-frequency Bioelectrical Impedance Analysis
- Output to PictBridge printer, with an in-depth assessment sheet
- Built-in SD card facility automatically collects data
- Max weight capacity: 600lb x 0.2lb / 270kg x 0.1kg
- USB & RS232 Connection
- Lightweight & easy to disassemble and transport
- Multi frequency: 5kHz, 50kHz, 250kHz
- 4 year warranty

**Example: MC-780U detailed Adult 18+ Body Composition printout**

**Compatible With:**
- Tanita Health Ware® Software
- Bluetooth Radio Wireless Adapter
  - Use for secure extended range!
