constant use in high traffic  
environments***

***Digital outputs are EMR ready,  
and perfect for HITECH Act  
compliance***

***Wireless options include ANT  
and WiFi***

### **WB-3000** *DIGITAL DOCTOR SCALE*

Tanita's WB-3000 digital doctor scale is ideally suited for many professional markets (including weight loss, medical, and fitness), with an industry leading capacity up to 660 lb (300 kg). It is the perfect replacement for the old mechanical balance beam scale, providing improved accuracy and efficiency. This scale features both an RS-232 and USB output to transmit patient data to an external device. The incredibly durable, yet portable unit is equipped with casters for easy mobility. The WB-3000 also features a mechanical height rod, allowing patients height to be taken the same time as weight, along with an automatic **body mass index (BMI) calculation**.
